LET us adopt College colors, with a hearty yell to support them. Spring will soon be here with its preparations for field day. Why not call a meeting of the students and faculty and push this matter? Athletic Association what are you good for? Call a meeting and have something done.

THE College library as most of us know is small compared to our needs. What we want perhaps can not be supplied immediately, but steps should be

HE CRESCENT, refer to the one belonging to the Cres. cent society, but a general library of reference books. Some one should make it his special duty to see that proper steps are taken to raise a fund, with which books could be secured for the use of students. We ask who needs books more than those preparing themselves for life? A good library placed at the disposal of such a class of young people is continually doing good, they are like the type in a printing press. stamping their impression on every one, who peruses them. We have no plan to propose whereby this might be raised, but if every one interested in the college would give something, there could be made an addition to our present library, which would make a basis of no small value.

"TIME wasted is existence; used is life." This saying can not be made too strong; regularity is one of the first and most important rules for a college student. Educators have found system to be a necessity, for the greatest success. The faculty of Pacific College taken to increase its size. We do not have spoken to us of this subject for

Let us have a time for everything, and do that thing in that time. The habit of having no ject, and when an opportunity is offertime to do a certain thing, means that it is doubtful whether that thing will be done at all or not. Time wasted in deciding or not knowing what to do, if applied systematically in reading some profitably used in reading a good book, the reader would find that the libraries would soon be his own, and a new supply would be wanted. Let us apply the advice of our professors and lay down a certain program for study, then make everything work to it. Our class calls and other movements about the college, are carried on remarkably well by most, but a little more thoughtfulness on the part of some might be best. Let every one of us try and make progress, and have a system to work and study by.

ORATORICAL work in Pacific College is now at a stand still. There seems to be no special strife in this line for the championship, or even a good oratorical entertainment. It is not because we have no material. But on the contrary, there is latent power among us, and if only started might be developed into a Clay, Webster or even beyond them. It will be but a short time, when there will be an Inter-Collegiate Oratorical Association in Ore-Ir is surprising to notice the num- gon, and we will want to be among the number to take part in this, and do so with honor. If the material is here why not use it, and develop a new field which has never been entered? Literary work in general is improving, but what we need, is a good waking up, and have an oratorical contest. Let the people know what we are doing and show them, that there are orators among us, as well as at other schools. This work will not only be a benefit to numbers, but how little are they dothemselves. You ask them a question and they give you the answer of some one else. ## Athletic.

The subject of athletics is one that has received much thought and attention, by educational institutions within the last few years. The County Superintendent of public schools, L. H. Baker, will hold a local Teacher's Institute here February 19th and 20th, for the benefit of those teaching and others who are in this part of the county. Every one interested in education should attend, whether a teacher or not. Mr. Baker is well known throughout the county, and institutes held by him, are well attended. Let Pacific College students attend, and show the visiting teachers the interest we have in such work. There will be on Friday evening a lecture given by Prof. Kantner, of LaFayette Seminary. Mr. Kanter is one of Yamhill's best instructors and a christian gentleman. All who hear him will be well repaid for the time spent. We feel sure the Seminary will lose a man whose place may not easily be filled. Mr. Kantner, on account of his health, has resigned his position and enters the ministry after this year.
